it is critical in this day of discovery and augmented scientific knowledge that we come to an accurate balance of understanding between foundational science and foundational religion we are facing a technology that is moving at enormous speed we need to understand the precarious status of humans as we enter and live through the future technology era that is upon us humanity could be negatively affected by technology either unintentionally or by design as we move forward ethical and moral decisions will be confronted as to how we manage ai artificial intelligence robots avatars and the huge data gathering process associated with the tech industries being formulated at this moment controversy will rage

but solutions will percolate the truth is you and i are the product in the new global technology paradigm and our information will feed ai the data eating beast pandora s box is open science and technology are leapfrogging forward at an exponential pace there is no mechanism to stop it except god god s children are weighted and wired for spiritual success true doctrines and ordinances of the gospel of christ fortify faith and give christians hope in his return spiritual development and power comes to those who are prepared and willing to stand with christ the fuller blessings may be ours in spite of the underlying challenges perhaps it is fortunate that we live in the fullness of time and the fast approaching premillennial era the righteous will be saved in life or death some may be blessed to witness the glorious second coming of the savior

earth life is a unique time chiseled out of eternity for you to become more like god but how do you actually do that how do you use eternal truths to up your game and propel yourself forward how do you stop making the same mistakes over and over again and convert mortal turbulence from back breaking to god making drawing from gospel principles supported by examples across time genre and culture author susie mcgann teaches how to expand your vision for what is possible increase your impact on your current circumstances and strengthen your relationship with christ to take your results from good to great in you on purpose learn how to take life by the horns and let yourself be great unashamedly partner with god and draw upon his life transforming powers to multiply your success overcome doubts insecurities and challenges that hold you back from truly rocking life we were not divinely created as children of god to settle for less than what s possible we each have a birthright and it is for greatness stand up and seize it

this inspiring book from popular ces speaker ryan sharp demonstrates how your favorite scriptural heroes were able to connect with the divine and can help you in your own spiritual journey be inspired by nephi s steadfastness alma the elder s and alma the younger s conversion the conviction of king lamoni his father and the anti nephi lehis captain moroni s obedience mahonri moriancumer s faith along with many others this book shows how mortal men came to know the savior learn to meet him as they did by following in their footsteps and discovering christ in new and profound ways

can help change the direction of the soul let others know that you are proud of them do more for others than you do for yourself have you found joy in your life has your life brought joy to others god s gift to us is life what we do with this life is our gift to god god does not make mistakes and god does not make junk you are a divine child of god one of god s precious children be nice to yourself because you re worth it and god loves you love is the key to understanding through prayer praying to the lord by giving 15 minutes a day to this journal shows god your love for him and in return god will answer your prayer spiritually or monetarily showing his love for you faith will keep you on that less traveled road god will occasionally stick us back into the fire to burn the impurities from this precious piece of gold our soul this is why so called bad things happen to good people it is just the lord changing our direction once we understand why we are here and our calling for god to help others we will only know where we are going the lord s prayer mentioned on earth as it is in heaven bible basic instruction before leaving earth helping someone will make you feel good about yourself and this book offers the tools needed

the idea of predestination which seems to have a scriptural basis is actually a trojan horse while appearing to many to be a gift of grace it is actually full of deceptions and completely inconsistent to the plan of salvation holding that man has no free choice and that god has already selected a favored few of his children for salvation while committing the rest most of mankind to damnation regardless of merit to explore this subject with maximum clarity i will present the doctrine of predestination in sharp relief to the true doctrines of the wondrous plan of salvation for all mankind this presentation includes a detailed description of what the doctrine consists of it s origin and history the scriptural authority referenced to support the doctrine its implications and a discussion of how and why the idea of predestination is inconsistent and at odds with the gospel of jesus christ to better introduce this subject i begin the first chapter of this book with a personal experience an experience that heightened my own awareness of the issue
